

5. (Amended) The sealed blister assembly described in claim 3, wherein the undercut comprises sidewalls, and further wherein the inside of the sidewalls are in frictional engagement with the outside edge of the ridge walls.

16. (Amended) A sealed blister assembly set forth in claim 1, wherein the length and width dimensions of the ridge are larger than the corresponding dimensions of the undercut.

B 2
17. (Amended) A package assembly set forth in claim 14, wherein the length and width dimensions of the ridge are larger than the corresponding dimensions of the undercut.
